

1st Annual Mobile Lung Symposium Draws Sellout Audience to Expand Cancer Screenings into the Community

July 17, 2019

The annual event educates healthcare professionals on how to increase accessibility to mobile computed tomography (CT) services across the United States

DANVERS, Mass., July 17, 2019 /PRNewswire/ -- Aiming to build community among oncology and radiology professionals surrounding life-saving cancer screenings, [NeuroLogica](#) and the [Winnebago Specialty Vehicles](#) division hosted speakers from the [American Lung Association](#), Atrium Health's [Levine Cancer Institute](#) and others, at the [1st Annual Mobile Lung Symposium](#) in Minneapolis, MN. The event drew a sold-out audience from healthcare systems across the country to educate professionals on the solutions available to them for extending their cancer screening and prevention programs into the community. A recap video of the event can be watched [here](#).

The 1st annual conference featured a half-day of presentations, a tour of the Winnebago motorhome manufacturing facility in Forest City, Iowa and a Mobile Lung Unit community outreach vehicle equipped with a NeuroLogica's mobile low-dose CT scanner, BodyTom. In 2020, the [2nd Annual Mobile Lung Symposium](#) will be hosted by Summit Bodyworks in Denver, Colorado on May 12- 13, 2020.

"With over 200,000 people diagnosed with lung cancer every year¹ and over 8 million people at high-risk for lung cancer², early screening is critical to ensure the best chance of survival," said David Webster, NeuroLogica's Chief Operating Officer. "We are proud to increase access to low-dose lung screenings through our partnership with Winnebago, and help educate and inspire health systems to expand their services into the community where we know people often need this support the most."

On the first day of the symposium, attendees met at the Winnebago offices in Eden Prairie, Minnesota, to learn the latest in lung screening research, how to establish and maintain mobile screening programs, the evolution of Mobile CT's, and the future of innovative mobile healthcare. Speakers included:

- Mellisa Wheeler, Director of Disparities & Outreach at Levine Cancer Institute
- Darcy Doege, Program Coordinator of the Lung B.A.S.E.S. 4 Life Program at Levine Cancer Institute
- Dr. Albert Rizzo, Chief Medical Officer at American Lung Association
- Dr. Shawn Regis, Lung Screening Patient Navigator at Lahey Hospital & Medical Center
- David Webster, COO of NeuroLogica
- Rob Kim, Director of Winnebago Industries, Specialty Vehicles division
- Ashis Bhattacharya, Vice President of Business Development, Specialty Vehicles, and Advanced Technology at Winnebago Industries

Day two took attendees to Forest City, Iowa to tour a manufacturing facility of Winnebago Industries, and experience first hand an example of a Mobile Lung Unit (MLU) featuring NeuroLogica's BodyTom Elite. The BodyTom Elite is the world's first portable, full-body, 32-slice CT scanner. It was installed in a J38S Winnebago commercial vehicle platform.

"Winnebago has always been a market leader and industry innovator," said Ashis Bhattacharya, Vice President of Business Development, Specialty Vehicles, and Advanced Technology at Winnebago Industries. "Expanding our innovations into mobile lung screenings represents the next evolution in mobile healthcare innovation and has the potential to change a person's life dramatically. We are thrilled the symposium was so well received."
