Grand Design RV® Announces Consumer Debut of Lineage® Series F Super C at Florida RV SuperShow

January 14, 2025

MIDDLEBURY, Ind., Jan. 14, 2025 (GLOBE NEWSWIRE) -- Campers and RV enthusiasts of all types can be the first to see the latest innovation in RVs in Florida this week. Grand Design RV® announced today the consumer debut of the highly anticipated Lineage® Series F Super C motorhome at the 2025 Florida RV Super Show, held January 15-19, in Tampa, Florida.

The Series F sets new standards in the Super C RV class and represents the second coach in Grand Design's Lineage motorized RV lineup, following the much-anticipated launch of the Lineage® Series M last year which took Best New Model and RV of the Year honors from leading RV industry publications.

"The Super C market has been waiting for true innovation, and Lineage® Series F delivers exactly that," says Tommy Hall, motorized general manager at Grand Design RV. "This launch represents more than just a new model – it demonstrates how we continue to move the motorized industry forward through innovative design and engineering excellence."

Grand Design RV is a leading manufacturer of travel trailers, fifth wheels and motorized RVs that package industry-best features, functions and design into one unique, high-quality product. The Series F combines the power of a 22,000-pound GVWR platform with exceptional amenities and engineering, including a 43,000 pound gross combined weight rating that offers massive capacity with true comfort. The robust 6.7L Power Stroke diesel engine delivers 330 horsepower and 950ft lbs. of torque. The custom-engineered MORryde chassis with Fox Racing suspension showcases innovative engineering focused on end-user benefits.

"We started this project by challenging every convention in Super C design," said Mike Hums, product manager for the Lineage Series F. "From the foundation up, we've engineered a coach that performs as impressively in the backcountry as it does on the interstate. Working with partners like Fox Racing and MORryde, we've created a suspension system that lets owners dial in their perfect ride, whether they're towing their boat to the lake or exploring forest service roads. This isn't just another Super C – it's a glimpse into the future of motorized RVs."

Additional key features of the Lineage Series F include:

- 15,000-pound towing capacity
- New SureSlide slideout mechanism
- 320 Amp/hr lithium battery system / 1,000 watts solar / 2000 Watt Xantrax Inverter
- Innovative dual zone 15K BTU air conditioning system with cab over bunk A/C
- Premium European-inspired interior with Tecnoform Italian cabinetry
- Lined front bumper with Raptor style grill & LED lights
- 80" long Indratech king side rear bed
- Optional stacked washer and dryer

The Lineage® Series F along with 61 other RVs can be explored at the Florida State Fairgrounds, booths: 400 and 405. Grand Design will feature special show pricing available through Lazy Days RV and General RV and have expert product specialists on-site for detailed walk-throughs.
