The new Solei 38R floorplan is on display for the first time at a retail event. Providing a luxury Class A diesel at an affordable price, the Solei is built on the Freightliner® XCS straight-rail chassis which provides a solid foundation with a Cummins 340-hp diesel engine and Allison six-speed transmission delivering the power. Diesel pushers are known for storage and the Solei ups the ante with its Smart Storage™ design that pushes capacity even further. Inside, the Solei has fine amenities such as polished Corian galley countertops, coffee-glazed cabinetry, upscale entertainment features, and LED lighting. The 38R features two slideout rooms with an exceptional bath-and-a-half floorplan. A rear master suite provides a private rear bathroom and a queen-size bed with large wardrobe and a 28" HDTV that flips down from the ceiling for easy viewing. The 38R also includes a Flex Bed system that provides bunk beds, wardrobe, or converts into a dinette. Also standard in the 38R is a half bath, Comfort Sofa Sleeper, BenchMark dinette with Dream Dinette™ table, full-featured galley with pantry and residential refrigerator, and large 50" LED HDTV above the optional fireplace.

Also debuting at the show is the new Minnie Winnie 22R Class C built on the Ford E350 chassis. The 22R provides great function and full amenities in a compact size. With a rear corner bed, and U-shaped dinette that folds into a bed and overhead cab bed, the 22R has the ability to sleep up to 6 people. The 22R also features a large wardrobe and large exterior rear trunk storage.

The Pomona Show is also the first West Coast showing of the new Trend and Travato. Winnebago Industries is the first to build a Class C motorhome on the Ram ProMaster chassis with the world renowned V6 Pentastar gas engine and 9,350 lb. GVWR, six air bags in the cab for added safety, and best in class cab ergonomics and visibility. The nicely affordable new Winnebago Trend delivers peppy, fuel-efficiency and comfortable living space for up to six people. Both 24' floorplans feature a powered StudioLoft™ bed that lifts tight to the ceiling to conserve space during the day. Other features include energy-saving LED lighting and available soft, easy-to-clean Ultraleather™ furniture. The Trend features industry-leading three-point seat belts in the dinette. The 23B offers front swivel cab seats, a sofa/bed and dinette, a large, full-featured mid-coach galley and rear bath. Two large sleeping spaces provide comfortable sleeping for four adults with the Queen size front loft bed and a King size Flex Bed System. The 23L also features swivel cab seats expanding the living area of the motor home, as well as a forward-facing dinette on the driver's side and a side-facing dinette bench seat on the curb side of the unit. Together these comfortable seating spaces convert into one convenient sleeping space. Additional sleeping space is available with the rear corner bed and front Studio Loft bed. A mid-coach L-shaped galley is full featured and has a forward facing sink.

The Travato is the latest Class B motorhome to join the Winnebago Touring Coach lineup. The Travato is also built on the Ram ProMaster chassis. At just under 21' long, the Travato is unbelievably agile while still offering a full-feature RV experience that is perfect for the adventurous explorer. Travato also provides value-conscious enthusiasts amazing fuel efficiency. With swivel cab seats, LED ceiling lights, standard touch-screen navigation, a split dinette, and an abundance of features, the Travato delivers a whole lot of fun. The Travato is the only product in its industry segment to provide a 3-point seat belt harness for passengers in the dinette. The innovative 59G floorplan features a rear double bed that is designed to flip up out of the way to allow for large items like bicycles to be stored securely inside and making them easily accessible through the large double doors at the rear of the coach. The Flex Bed system allows for additional sleeping in the front of the unit as well.

Feel free to stop by Winnebago Industries' display in Booth # 3001, 4001 and 1021, where you will find the full complement of 2014 Winnebago, Itasca, Winnebago Touring Coach and SunnyBrook motorhome and towable products on display.

About Winnebago Industries, Inc. - "The Most Recognized Name In Motor Homes®", is a leading U.S. manufacturer of recreation vehicles, which are used primarily in leisure travel and outdoor recreation activities. The Company and its subsidiary build quality motor homes, travel trailers, fifth wheel products, and transit buses under the Winnebago, Itasca, Winnebago Touring Coach, SunnyBrook and Metro brand names.
