Re: Winnebago

Industries, Inc.

Form 10-K for

Fiscal Year Ended August 26, 2023

Forms 8-K filed

October 18, 2023, December 20, 2023, and March 21, 2024

Response dated

April 25, 2024

File No. 001-06403

Dear Bryan Hughes:

 $$\operatorname{\textsc{We}}$  have reviewed your April 25, 2024 response to our comment letter and have the

following comment.

 $$\operatorname{Please}$  respond to this letter within ten business days by providing the requested

information or advise us as soon as possible when you will respond. If you do not believe a

comment applies to your facts and circumstances, please tell us why in your response.

 $\hbox{After reviewing your response to this letter, we may have additional comments. Unless} \\$ 

we note otherwise, any references to prior comments are to comments in our March 19, 2024

letter.

Forms 8-K filed on October 18, 2023, December 20, 2023, and March 21, 2024  $\,$ 

Exhibit 99.1

Non-GAAP Reconciliation, page 12

1. We note your response to our prior comment and reissue it, in part, as your letter dated
April 25, 2024, was not fully responsive to our comment. In regard to the non-GAAP
adjustment related to the impact of the call spread overlay that you present to determine your non-GAAP financial measure, Adjusted diluted income per share, please specifically

address the following:

You previously

stated you do not believe your presentation of Adjusted diluted

income per share

has the effect of changing the recognition and  $\ensuremath{\mathsf{measurement}}$ 

principles required

to be applied in accordance with GAAP. Explain in greater detail

Bryan Hughes Winnebago Industries, Inc.

May 20, 2024

Page 2

 $% \left( 1\right) =\left( 1\right) +\left( 1\right) +\left($ 

 $\mbox{does not result in an individually tailored non-GAAP financial} \\ \mbox{measure that is} \\$ 

inconsistent with the guidance in Question 100.04 of the Compliance and Disclosure

 $\label{eq:continuous} \mbox{Interpretations for Non-GAAP Financial Measures. In this regard,} \\ \mbox{we note your non-}$ 

 $\mbox{\sc GAAP}$  financial measure results in you presenting diluted income per share without

applying the if-converted method, which is required by GAAP.

You previously stated you adjust Adjusted diluted income per share for the impact of

 $% \left( 1\right) =\left( 1\right) \left( 1\right)$  the call spread overlay to demonstrate to investors that if the convertible notes had

been converted into shares, the call spread overlay would be triggered and the  $\,$ 

dilutive impact would be fully offset. Explain in greater detail why you believe this

 $$\operatorname{\mathtt{non-GAAP}}$  adjustment is appropriate as the convertible notes remained outstanding

 $% \left( 1\right) =\left( 1\right) \left( 1\right)$  during the period and, as such, the impact of the call spread overlay was not

recognized in your historical financial statements.

 $$\operatorname{\textsc{Tell}}$  us how you considered the antidilution provisions of ASC 260-10-45 as this non-

 $\mbox{\sc GAAP}$  adjustment appears to exclude the dilutive impact of the if-converted shares.

Please contact Dale Welcome at 202-551-3865 or Anne McConnell at 202-551-3709 if

you have questions regarding comments on the financial statements and related matters.
